CARE

Plant people are very fragile and should be handled with care. But these tips will help keep them out of trouble.

- Don't leave your plant people outside or near water. They may feel under the weather.
- Never hold them by the plant.
- Try not to move them around too much.
- Keep your plant people on a bookshelf or another undisturbed place.
- Try not to touch their plant as they can be very fragile and could break or come out.
- Keep them on a bookshelf or another undisturbed place.
- They do not need any sunlight or water.

ABOUT US

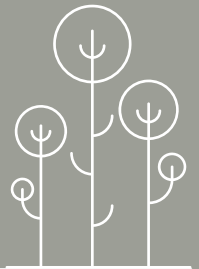

Plant People is a small, kid-owned business based in York, PA. All of our plant people are hand-made with care right here in York.

Are you looking for that little something that will make you smile just a bit brighter?

Then Plant People will be just right for you! Perfect on a shelf, table, or nightstand, they will make the perfect gift! Plant People require no sunlight, water, or soil.

THE STORY

Plant people are a tribal people originating in South America and Africa. They often live in tree hollows and other assorted crevasses. They eat snails, small insects, nuts, seeds and moss. Their main predators are Gripes, Gremlins and Grogles.
